QuickLase™

Laser Specialists since 1992

About us

We are a leading British manufacturing company in the field of dental soft tissue lasers and teeth bleaching/whitening as well other OEM dental & medical products, based in the UK with dealers worldwide.

We are UKAS Intertek EN ISO 13485:2016 and ISO 9001 certified, R&D manufacturing company with over 25 years of experience in the market with CE Medical Directive and FDA laser certifications. Our laser and whitening products are made in the UK.

We pride ourselves on delivering innovative products in the dental and medical industry both with our brand name and OEM products.

All our products are vetted for quality and certification. Our laser training is backed by the BILD laser academy training hands-on programme.

Our team of professionals will discuss your individual needs, and provide phone support at any time, as well as provide publicity material to help promote your latest technology within your surgery.

Our service does not end once a sale is made. Our after-sales service includes a state of the art repair and maintenance facility with factory trained technicians. We will ensure that your investment is maintained to the original manufacturer's specifications so that your equipment gives many years of reliable service

We have the BILD Academy (British Institute of Laser Dentistry) through which we offer professional laser training.

The British Institute of Laser Dentistry – BILD Academy – is a new non-profit organisation setup to offer hands on laser courses for dentists. Courses are provided in the UK and Internationally taught in English by renowned specialist dentists.
